If adjustable base does not operate or if parts are missing, call:
(844) MATT-FRM
Do not contact retail store or dealer.
IMPORTANT INFORMATION

READ THE FOLLOWING INFORMATION CAREFULLY BEFORE USING THIS PRODUCT

**WARNING**

FOR OPTIMUM ADJUSTABLE BASE OPERATION, USE A GROUNDED, ELECTRICAL SURGE PROTECTION DEVICE (NOT INCLUDED). FAILURE TO USE A SURGE PROTECTION DEVICE COULD COMPROMISE SAFETY OR CAUSE PRODUCT MALFUNCTION.

**ELECTRICAL RATING**

Electrical components are rated for 100-240V, 50/60Hz, 1.5A.

**ELECTRICAL GROUNDING**

This product is equipped with a polarized or grounded electrical power cord. The power cord will only fit into a grounded, electrical surge protection device (not included) or a grounded electrical outlet.

**WARRANTY WARNING**

Do not open any control boxes, motors or remote control devices (with the exception of the remote control and power down box battery compartments). The product warranty will be void if these components are tampered with. Do not attempt to alter component wiring or adjust or modify the structure of the product in any way or the warranty will be void. Any repair or replacement of base parts must be performed by authorized personnel.

**LUBRICATION**

This product is designed to be maintenance free. The lift motors are permanently lubricated and sealed—no additional lubrication is required. Do not apply lubricant to lift motor lead screws or any nylon nuts or the base may inadvertently creep downward from the elevated position.

**PRODUCT RATINGS**

The base lift motors are not designed for continuous use. Reliable operation and full life expectancy will be realized as long as the lift motor operation does not exceed five (5) minutes over a forty-five (45) minute period, or approximately 11% duty cycle. Any attempt to circumvent or exceed product ratings will shorten the life expectancy of the product and may void the warranty.

The recommended maximum weight (including mattress) is 700 lb (317 kg) distributed evenly across the base. This product is not designed to support or lift this amount in the head or foot sections alone. **Note: Exceeding the recommended weight restrictions could damage the base and void the warranty.**

For best performance, consumers should enter and exit the adjustable base with the base in the flat (horizontal) position. Avoid placing entire weight on head or foot section of the base, including when in the raised position. **DO NOT STAND ON BASE AT ANY TIME.**

UL (Underwriters Laboratories) recognized components.

CFR 1633 approved for use with most mattresses.

Assembled in USA.
ADVISORY

IMPORTANT INFORMATION

READ THE FOLLOWING INFORMATION CAREFULLY BEFORE USING THIS PRODUCT

SMALL CHILDREN / PETS WARNING
After the base is unboxed, immediately dispose of packaging material as it can smother small children and pets. To avoid injury, children or pets should not be allowed to play under or on the base. Children should not operate this base without adult supervision.

PACEMAKER WARNING
This product produces a vibrating sensation. It is possible that individuals with heart-assist pacemakers may experience a sensation similar to exercise. Consult physician for complete information.

HOSPITAL USE DISCLAIMER
This base is designed for in-home use only. It is not approved for hospital use and does not comply with hospital standards. Do not use this base with tent type oxygen therapy equipment, or use near explosive gases.

SERVICE REQUIREMENTS
Service technicians are not responsible for moving furniture, removing headboards and footboards or any items required to perform maintenance on the base. In the event the technician is unable to perform service due to lack of accessibility, the service call will be billed to the purchaser and the service will have to be rescheduled.

FCC COMPLIANCE
The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning off the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radio Frequency = 2.4GHz.
ACOUSTICS

LIFTING/LOWERING MECHANISMS
The lift/lower feature will emit a minimal humming sound during operation. This is normal.

During operation, the lift arm wheels make contact with the platform support of the base. This applies slight tension on the moving components and resonance is reduced to a minimum level. If excessive noise or vibration is experienced, reverse the movement action (up or down) of the base with the remote control. This should realign the base’s activating mechanisms to the proper operational position.

FABRIC CLEANING INFORMATION

Spot clean only with water based shampoo or foam upholstery cleaner. Pretest a small, inconspicuous area before proceeding. Do not over wet. Do not use solvents to spot clean. Pile fabrics may require brushing with a non-metallic, stiff bristle brush to restore appearance. *Hot water extraction or steam cleaning is not a recommended cleaning method.*

To prevent overall soiling, frequent vacuuming or light brushing with a non-metallic stiff bristle brush to remove dust and grime is recommended. When cleaning a spill, blot immediately to remove spilled material. Clean spots or stains from the outside to the middle of the affected area to prevent circling. Use a professional furniture cleaning service when an overall soiled condition is apparent.
For installation and setup, complete the following procedures, in the order indicated below and on the following pages:

**STEP 1**
Before discarding any packing materials, check the adjustable base shipping carton and verify the following items are included:

- (4) Bed Legs
- (1) Remote Control
- (3) AAA Batteries
- (1) Control Box
- (1) Power Supply (includes power brick, electrical feed cord, and electrical power cord)
- (1) Warranty Activation Card
- (1) Quick Setup Guide

**POWER SUPPLY** (power brick, electrical feed cord, and electrical power cord)
*factory attached to base, no assembly required*

**REMOTE CONTROL**

**3 - AAA BATTERIES**

**LEG** (4 pieces)

**WARRANTY ACTIVATION CARD**

**QUICK SETUP GUIDE**

**CONTROL BOX**
STEP 2
Remove the hardware box. Cut zip-tie and remove mattress retainer.

STEP 3
Install (4) legs into the base frame. Simply screw each leg into a tapped hole at the corner of the base frame (FIGURE 1). Push pin in to adjust leg height (achieve leg height of 6 inches to 10 inches).

STEP 4
Carefully lift the adjustable base from the shipping carton, keeping the unit top-side-down. Uncoil and extend out power cord from base.

WARNING
POWER CORDS MUST NOT INTERFERE WITH ANY ADJUSTABLE BASE MECHANISMS.

CAUTION
DO NOT ATTEMPT TO SCREW LEGS INTO ANY OTHER INSERTS. THIS WILL DAMAGE PRODUCT.

WARNING
AT LEAST TWO PEOPLE ARE RECOMMENDED FOR HANDLING AND MOVING ADJUSTABLE BASE.
STEP 5
Remove the plastic packaging from the base frame. Carefully rotate the adjustable base over to position the base so it is resting on its legs.

STEP 6
Install batteries in remote control (3-AAA, included) (FIGURE 2). **Note:** Make sure to orient batteries properly. Briefly activate all functions of the base with the remote control to verify all features are in working order. If base does not operate, refer to the Troubleshooting section of this manual.

**FIGURE 2**

STEP 7
Return base to the level position.

STEP 8
Install mattress on adjustable base.

Typical B-1 Model adjustable base installation is now complete.
POWER DOWN OPERATION

To lower the base to the *flat* position during an electrical power outage, complete the following procedure:

**STEP 1**
Verify power is unplugged from electrical power source.

**STEP 2**
Locate (1) power brick (*FIGURE 3*) and (2) 9 volt batteries (not included).

**STEP 3**
Install (2) 9 volt batteries in power brick (*FIGURE 4*).
POWER DOWN OPERATION

STEP 4
Press the *head down* button on the remote control until the head section is flat, then press the *foot down* button on the remote control until the foot section is flat (*FIGURE 5*).

![FIGURE 5](image)

STEP 5
Remove two (2) 9 volt batteries from power brick. Plug power cord back into electrical power source (*FIGURE 6*). When power is restored from outage, base is ready to resume normal operation.

![FIGURE 6](image)
UNDERBED LIGHT FEATURE
The B-1 Model bases are equipped with underbed light switches located on either side of the base. Press in on underbed light switch to turn underbed light on and off (FIGURE 7).
REMOTE CONTROL FUNCTION

REMOTE CONTROL REQUIRES THREE (3) AAA SIZE BATTERIES (INCLUDED). THE BUTTONS ON THE REMOTE CONTROL ILLUMINATE FOR 2.5 SECONDS WHEN PRESSED AND RELEASED.

NOTE

HEAD UP BUTTON
Press and hold to raise the head section.

FOOT UP BUTTON
Press and hold to raise the foot section.

HEAD DOWN BUTTON
Press and hold to lower the head section.

FOOT DOWN BUTTON
Press and hold to lower the foot section.

FLAT BUTTON
Press and hold to lower the base to the level position.
Remote Control Programming (1 remote control - 1 base)

Program One Remote to Operate One Base - perform the following numbered procedure.

Step 1
Unplug the adjustable base electrical power cord. Wait 30 seconds, then plug the cord back into the power source.

Step 2
Locate the control box, attached to the underside of the base (FIGURE 8). The control box will be mounted in a housing.

Step 3
On the control box, press the learn button two times in short succession. A green LED will illuminate and stay on (FIGURE 8).

Step 4
On the remote control, simultaneously press and hold the HEAD UP and FLAT buttons (FIGURE 9). The green LED on the control box will shut off.

One remote control is now programmed to operate one base.

**NOTE**

To un-program a remote control - press learn button four (4) times until green LED light stays on, then press learn button one (1) more time to confirm.
REMOTE CONTROL PROGRAMMING (1 remote control - 2 bases)

Program One Remote to Operate Two Bases - perform the following numbered procedure. Note: Only one remote needed. Remove batteries from second remote and store in a safe place for future use.

STEP 1
Unplug both adjustable bases from the electrical power source. Wait 30 seconds, then plug the cord for base 1 back into the power source.

STEP 2
Locate the control box for base 1, attached to the underside of the base (FIGURE 8). The control box will be mounted in a housing.

STEP 3
On the control box, press the learn button two times in short succession. A green LED will illuminate and stay on (FIGURE 8).

STEP 4
On the remote control, simultaneously press and hold the HEAD UP and FLAT buttons (FIGURE 8). The green LED on the control box will shut off.

STEP 5
Plug the cord for base 2 back into the power source.

STEP 6
Locate the control box for base 2, attached to the underside of the base (FIGURE 8). The control box will be mounted in a housing.

STEP 7
On the control box, press the learn button two times in short succession. A green LED will illuminate and stay on (FIGURE 8).

STEP 8
On the remote control, simultaneously press and hold the FOOT UP and FLAT buttons (FIGURE 9). The green LED on the control box will shut off.

One remote control is now programmed to operate two bases.
Separate Two Bases - for independent adjustable base movement, perform the following numbered procedure.

**STEP 1**
Locate the control box for base 1, attached to the underside of the base (FIGURE 8). The control box will be mounted in a housing.

**STEP 2**
On the control box, press the learn button four times in rapid succession until the green LED stays on (FIGURE 8).

Within three seconds, press the learn button one more time to confirm success (green LED will go off).

**STEP 3**
Repeat procedure for base 2.

**STEP 4**
Unplug both adjustable bases from the electrical power source. Wait 30 seconds, then plug the cord for base 1 back into the power source.

**STEP 5**
Locate the control box for base 1, attached to the underside of the base (FIGURE 8).

**STEP 6**
On the control box, press the learn button two times in short succession. A green LED will illuminate and stay on (FIGURE 8).

**STEP 7**
On remote control 1, simultaneously press and hold the **HEAD UP** and **FLAT** buttons (FIGURE 9). The green LED on the control box will shut off.

**STEP 8**
Plug the electrical cord for base 2 back into the power source.

Repeat Steps 5 thru 7 with base 2 and remote control 2.

Independent remote control operation is now restored (remote control 1 operating base 1; remote control 2 operating base 2).
If the adjustable base fails to operate, investigate the symptoms and possible solutions provided in the chart below:

<table>
<thead>
<tr>
<th>SYMPTOM</th>
<th>SOLUTION</th>
</tr>
</thead>
</table>
| Remote control illuminates and appears to be operable, but will not activate base. | • Verify power cord is plugged into a working, grounded electrical outlet. *A grounded, electrical surge protection device is recommended.* Test outlet by plugging in another working appliance.  
• If the base was operated over the rated duty cycle, thermal switch opens. Wait 30 minutes before trying to operate the base. Once the base resumes normal operation, do not exceed the duty cycle. |
| No features of the base will activate.                                | • Program the remote control (see *Remote Control Programming* section of this manual for programming procedures).  
• Unplug power cord, wait 30 seconds and plug in to reset electronic components.  
• Electrical circuit breaker may be tripped. Check electrical service breaker box to verify.  
• Defective surge protection device or electrical outlet. Test outlet by plugging in another working appliance. |
| Remote control will not illuminate.                                  | • Replace batteries in the remote control.                                                                                               |
| Head or foot section will elevate, but will not return to the horizontal (flat) position. | • Base mechanism may be obstructed. Elevate base and check for obstruction. Remove obstruction.  
• Head section may be too close to the wall.  
• Headboard may be too close the edge of the mattress. Verify a 1.5” (38.1mm) to 2” (50.8mm) distance between headboard brackets and mattress. Adjust if required. |

1 YEAR, 3 YEAR AND 10 YEAR LIMITED WARRANTY

In this warranty: “Adjustable base” means the adjustable bed foundation sold by L&P to the dealer. The “adjustable base” does not include the mattress. “L&P” means Leggett & Platt, Incorporated. “Purchaser” and “You” both mean the consumer who is the original purchaser of this adjustable base made by L&P. This warranty is not transferrable. “Warranty Commencement Date” means either (i) the date You purchased a new and unused L&P adjustable base or (ii) the date of manufacture of this adjustable base if You purchased an L&P adjustable base that has been used as floor or display model. L&P warrants this adjustable base to You on the terms and over the reducing periods of time set out below. All warranty claims require notice from You to be given to L&P in the manner set out below, and to be received by L&P inside the applicable warranty time period.

1ST YEAR FULL WARRANTY
For the first year from the Warranty Commencement Date, your adjustable base is warranted against non-excluded defects in L&P’s workmanship or materials. During the first year from the Warranty Commencement Date, L&P will repair or replace (at no cost to You) any defective adjustable base part, and L&P will pay all authorized labor and transportation costs associated with the repair or replacement of any parts found to be defective.

2ND & 3RD YEAR LIMITED WARRANTY
During the second and third year from the Warranty Commencement Date, L&P will replace any adjustable base part found to be defective and not excluded by this warranty. You are responsible to pay all service and transportation costs related to the costs of receiving and installation of the new part.

4TH YEAR TO END OF 10TH YEAR LIMITED WARRANTY
Starting in the fourth year from the Warranty Commencement Date and through to the end of the 10th year from the Warranty Commencement Date, L&P will replace steel and mechanical base parts found to be defective and not excluded by this warranty. This warranty does not cover any electronics, electrical components, drive motors or massage motors. You are responsible to pay all service and transportation costs related to receiving and installation of the new part and a portion of the cost of the replacement steel and mechanical part, based on the number of months that the base has been owned by you since the fourth anniversary of the Warranty Commencement Date. By the end of the 10th year, no portion of the replacement cost is covered by L&P. You will be required to pay 1/7th of the then current replacement cost of the part multiplied by the number of years past the third year from the Warranty Commencement Date. This portion is calculated using the following formula: Cost of the part divided by 7 [being the number of years in years 4 to 10 inclusive], multiplied by the number of years you have owned the base since the end of the first 3 years. For example, if you make a claim for a part eligible for this warranty in the 5th year since the Warranty Commencement Date, you would be responsible for paying: $100 part cost divided by 7, multiplied by 2 = $28.57.

ADDITIONAL TERMS AND CONDITIONS
This warranty requires notice to be given to L&P of any claim for repairs or replacement parts.

EXCLUSIONS:
This warranty does not apply; (a) to any damage caused by You; (b) if there has been any repair or replacement of adjustable base parts by an unauthorized person; (c) if the adjustable base has been mishandled (whether in transit or by other means), subjected to physical or electrical abuse or misuse, or otherwise operated in any manner inconsistent with the operation and maintenance procedures outlined in the Owner’s Manual and this warranty; (d) to damage to mattresses, fabric, cables, electrical cords or items supplied by dealers (contact the dealer for warranty information on these items); (e) if there has been any modification of the adjustable base without prior written consent by L&P; or (f) to costs for unnecessary service calls, including costs for in-home service calls solely for the purpose of educating You about the adjustable base or finding a satisfactory power connection.

This warranty will be void if either the recommended weight restriction is not followed (refer to the advisory section of the Owner’s Manual) or if You sell or give or transfer the base to another person.

Any repairs to or replacement to Your adjustable base or its components under the terms of this limited warranty does not extend the applicable warranty from the Warranty Commencement Date. This time limitation may not apply in some jurisdictions, including the Province of Quebec.

The decision to repair or to replace defective parts under this warranty shall be made, or cause to be made, by L&P at its option and in its sole discretion.

Continued on next page...
1 YEAR, 3 YEAR AND 10 YEAR LIMITED WARRANTY

Repair or replacement shall be the sole remedy of the Purchaser. There shall be no liability on the part of L&P for any special, indirect, incidental, or consequential damages or for any other damage, claim, or loss not expressly covered by the terms of this warranty.

This limited warranty does not include reimbursement for inconvenience, removal, installation, setup time, loss of use, shipping, or any other costs or expenses. L&P and its service technicians will not be responsible for moving furniture or any other items not attached to the adjustable base in order to perform service on the adjustable base.

It is the sole responsibility of You to provide adequate space and accessibility to the adjustable base. In the event that the technician is unable to perform service due to lack of accessibility, the service call will be billed to You and the service will have to be rescheduled.

L&P makes no other warranty whatever, express or implied, and all implied warranties of merchantability and fitness for a particular purpose are disclaimed by L&P and excluded from this agreement.

Some American States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to You.

This warranty gives You specific legal rights, and You may also have other rights, which may vary from jurisdiction to jurisdiction. This warranty is valid in all 50 American States, the District of Columbia, Puerto Rico, and all 10 Provinces and 3 Territories of Canada.

For customer service under this limited warranty, give notice to L&P by mail, phone, email or online to the addresses set out below:
